

## Hyper Series Ergonomic Compact Laptop Stand – HYP-1010

The HYP-1010 from Ultimate Support was designed to elevate your laptop in sturdy style, while still being able to fold up into your backpack for travel. Perfect for the gamer, producer, designer, or pretty much any kind of laptop user on the move; The HYP-1010 also provides the rigid, stylish support that makes it perfect for more permanent applications. Depending on how you like to set up, the HYP-1010 can fold into multiple configurations for use.

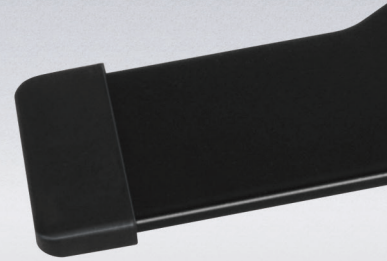

### Locks in Place

Sturdy Features and Locking mechanisms ensure your laptop stays securely in place.

### Multiple Configurations

The HYP-1010 can be adjusted to multiple heights and angles, making it ideal for any music setup.

### Thin Feet

Thin feet can slide under mixers and keyboards; integrating your laptop to your music station.

### Wide Base

Wide base allows for greater stability for your laptop.

### Compact Design

Compact design folds flat and slides easily into included tote bag.
