SET-UP

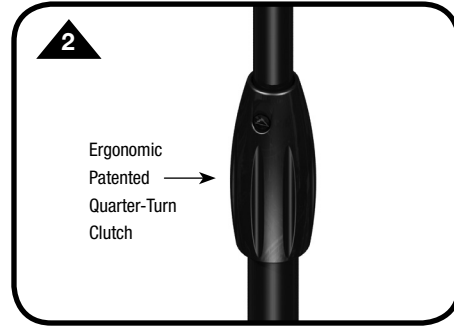

STEP 1

Tripod Base: Fold out legs until they are fully extended. No tightening of nobs is necessary.

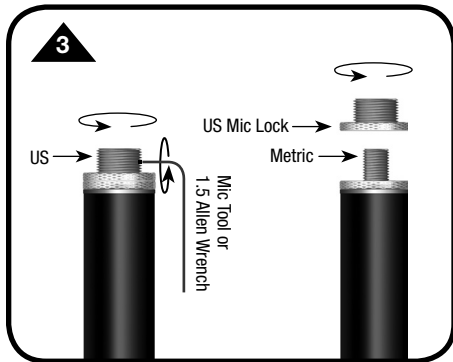

Weighted Base: Shaft screws into weighted base.

Modular Base Design: Allows any Tour shaft to be used with any Tour base, tripod or weighted.

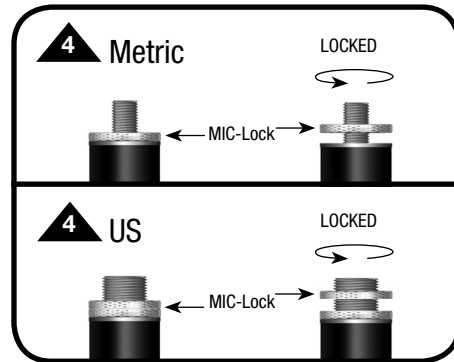

STEP 2

Turn the ergonomic **Patented Quarter-Turn Clutch** counter clockwise a quarter turn. Adjust stand height up or down. Securely retighten clutch by turning clockwise.

STEP 3 Universal Mic Attachment

To adjust US to metric, use tool provided or 1.5 Allen Wrench to unlock threads. Turn US threads counter clockwise until it is removed. US MIC-Lock will come off too.

STEP 4 Universal Mic Attachment

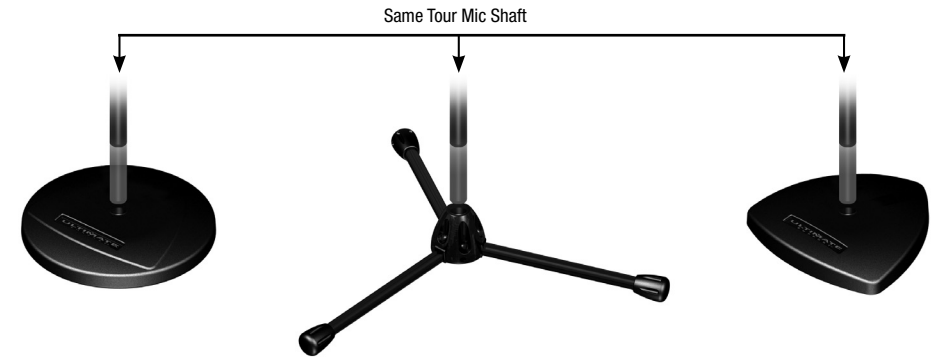

After choosing desired thread, place microphone on universal mic attachment. Then turn MIC-Lock counter clockwise to lock mic in place.

FEATURES

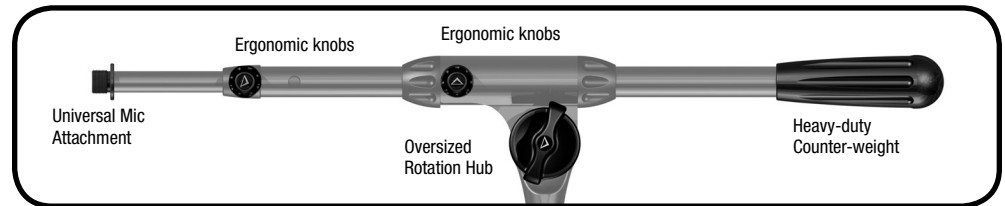

LEG REPLACEMENT

The legs on the Tour and Pro Series Mic Stands are built to be extra durable, withstanding the rigors of everyday use. However, if a leg should get damaged, the stand is designed to be field repairable and the legs can be replaced. Please visit www.ultimatesupport.com or call customer support at 800-525-5628 for more details.

THE SHAFT OF ANY TOUR STAND CAN BE USED WITH ANY TOUR BASE!

STAND & BOOM PACKAGE MODELS:

TOUR-T-T, TOUR-T-TALL-T, TOUR-T-SHORT-T, TOUR-RB-SHORT-T

The "Ulti-boom" telescoping mic boom features an oversized "rotation hub" - the place on a boom where everything comes together. Ultimate Support's center hub is the largest on the market, increasing friction, and reducing any chance of slipping. Adjust it once and forget about it!
