APEX ONE TWO TIERED COLUMN KEYBOARD STAND

The Apex Series from Ultimate Support is easily one of the most popular and iconic keyboard stands in the world. The Apex One builds on our previous refinements of the design from the AX-48 Pro, and improves upon them. The new design features an updated tier design that folds back into the column – making this our most portable Apex yet. In addition, if you have old Apex accessories, the old CMP-485 tier accessory still can be added to the column for additional tiers, and the tribars for two sets of arms can still store in the column. The new Apex One - it’s everything you love about Apex Stands, made even better.

ENHANCED PORTABILITY
The Apex One’s built-in tiers can be adjusted to place where you need them on the column, and they fold back into the column for transport and storage.

ADJUSTABLE ARMS
The arms on the Apex One’s built-in tiers can be set at three different angles, providing a completely level surface, or the option to angle tiers up or down.

BACKWARDS COMPATIBILITY
Your old accessories will still work with the Apex One! Old Super Clamps still attach to the column, and old tribar arms still store inside!

LEVELING FEET FOR UNEVEN SURFACES
The Apex One features two leveling feet for placing on uneven surfaces. The utility you want, for the security you need!

HAPPY FEET
Specially angled support legs have been designed to open up floor space and leave you room for pedals.

Speaker Stand Covers
Air-Powered Series speaker stands from Ultimate Support represent everything all other speaker stands aspire to be. They’re incredibly strong, extraordinarily sturdy, lightweight, and raise and lower speakers on their own! Driven by innovation and years of research and development, the Air-Powered Series features an internal shock that lifts speakers weighing 35 lbs and less with no effort, and requires very little end-user effort to raise speakers weighing more than 35 lbs!

Oversized, heavy wall aluminum tubing for strength and portability.

Internal air-powered shock gently raises and lowers the speaker for you.

Patented tripod design and glass-reinforced fittings and collars for gig-worthy strength.

Extra tall version extends to 9’ 2”!

Leveling leg for placement on uneven surfaces, risers, or stairs.
TeleLock® Series speaker stands are some of the easiest speaker stands to use thanks to the patented TeleLock® collar. Set the TeleLock® collar to the “Raise” setting and the Auto-lock technology provides just the right amount of resistance to lock the telescoping pole in place while you adjust the height of your speaker. Set it to the “Lower” setting and gently guide your speaker down. Set it to the “Lock” setting and the speaker will securely lock in place. Owning and using TeleLock® speaker stands is like having tour support built into every show!

TS-80 tripod speaker stands from Ultimate Support are the industry standard stands you’ve seen on stages for decades. They’re sturdy and lightweight, 100% field serviceable, and are used in more venues, on more stages, and in more shows than any other speaker stand in history. Ultimate Support invented the tripod speaker stand over 30 years ago and the TS-80B, TS-80S, and TS-88B continue the legacy of quality, innovation, and strength today.

Oversized, heavy wall aluminum tubing for strength and portability.

Patented die cast metal collar on tripod leg fitting.

Patented tripod design and glass-reinforced fittings and collars for gig-worthy strength.
