SINGLE-BRACE
X-STYLE STAND
IQ SERIES IQ-1000

The original single-brace
X-style stand with "Memory
Lock" opens to your selected
height choice every time.

Rev. 1 03.16.09 . Hang Tag Item #13231T

FEATURES OF IQ-1000

Memory Lock - Set the stand to your optimal height and Memory Lock opens to the selected choice every time.

Height Adjustable - Six settings range from sitting to standing levels.

Strong & Stable - Sturdy single-brace stand securely holds 100 lbs. Optional second tier available - order IQ-200.

Limited Lifetime Warranty - Constructed of the finest materials and backed by our award-winning customer support. For full details, exclusions and limitations as well as information on obtaining warranty service, visit www.ultimatesupport.com.

INSTRUCTIONS FOR SETTING UP THE STAND

To CORRECTLY open the stand, fully open it to the preset position. There should be a noticeable resistance as the plate catches the leg detent. THE KNOB SHOULD NOT BE ADJUSTED UNTIL THE STAND IS OPENED. The knob is NOT used to open and close the stand; it is only for adjusting the stand height.

1. To set up, open (see above note) with longer tubes on the floor. With the stand facing you, hold left top tube with left hand AND with right hand, pull knob (fully retract pin) and move leg crossbar at same time.
2. Pivot legs to desired height. Adjust to a specific location on locking plate so pin is engaged. Be sure the memory lock is fully engaged before placing keyboard on stand. Stand will open each time to desired height until setting is changed.
3. Turn lower leveling sleeve to thinner or thicker sides to adjust for uneven floor surfaces.

Visit www.ultimatesupport.com to download a detailed product manual, read full warranty details and to register your warranty.
