LIVE SERIES MIC STANDS

Live Series Microphone Stand with One-handed Height Adjustment

Ultimate Support invented the one-hand height adjustable microphone stand nearly two decades ago. The Live Series mic stands are intended to make the life of the musician easier with a super ergonomic clutch that easily raises and lowers to a desired height with just one hand. Plus, Live Series mic stands are constructed from super strong, lightweight aluminum so they're able to take the demands of today's musicians but light enough to go anywhere. Available in three base options (tripod, weighted, and stackable), there's a Live Series microphone stand that's perfect for your needs!

Patented universal mic attachment - US and metric

Ergo Clutch - One-handed height adjustment

Durable, lightweight aluminum construction

Locking tripod base for stable performance and convenient transport

LIVE-T
One-handed Height Adjustment Mic Stand with Tripod Locking Legs

LIVE SERIES ONE-HANDED HEIGHT ADJUSTABLE CLUTCH

Adjust the Height with Just One Hand!

Whether you're a rock star, music teacher, worship leader, or garage musician, nothing could be easier or more convenient than Ultimate Support's one hand height adjustable Live Series mic stands! The new ergonomic handle feels great in your hand and is easy to use - just squeeze to easily raise or lower the microphone! When you need to raise and lower the height of your microphone quickly and easily in one program, gig, or service, a Live Series microphone stand is the way to go!

Die-cast, sturdy weighted base

LIVE-ST
One-handed Height Adjustment Mic Stand with Standard Weighted Base

Live-SB combines the stability of a weighted base with the ability to stack six of them in the same space as just one!

LIVE-SB
One-handed Height Adjustment Mic Stand with Stackable Weighted Base

Ergo Clutch: One-handed Height Adjustment

Ultimate Support invented the one-hand height adjustable mic stand nearly two decades ago. Designed as the perfect performance stand, the new Ergo one-hand clutch holds better than any other one-hand stand. New ergonomic handle feels great in your hand and is easy to use - just squeeze to easily raise or lower the microphone.

Available With Three Different Bases

The Live Series mic stand is available with one of three base configurations. The Live-T features a locking tripod mechanism that locks legs in place for stable performance and fold up and locks for compact transport (simply turn the locking ring on the base to unlock legs and open). The Live-ST features a sturdy, die-cast standard weighted base while the stackable Live-SB combines the stability of a weighted base with the ability to stack six of them in the same space as just one!

Durable, Lightweight Aluminum Construction

Live Series microphone stands are designed with the lead singer in mind. They're light enough to move from gig to gig, but robust enough to take whatever you can throw at them. Durable, anodized aluminum construction creates a strong, ultra-lightweight stand preferred by lead singers.

Patented Universal Mic Attachment

Whether you're performing in the States or over seas, a Live Series microphone stand is the only stand you'll need. The top threads fit both US- and metric-threaded mic clips and accessories for use all around the world.
